

HeartSine 500P

Product code- 500-BAS-CN-10-ENCORE

Each **HeartSine Samaritan PAD 500P** in our **Encore Series** undergoes a comprehensive, multi-point inspection to ensure it performs to the highest standards. Following a successful performance review, each device is fitted with a **brand-new Pad-Pak cartridge**, which combines the battery and electrode pads into one convenient unit. Backed by a **1-year warranty**, the Encore Series 500P AED offers a reliable, cost-effective solution for any individual or organization looking to be prepared.

- **CPR Advisor Technology** provides real-time feedback on CPR rate and depth, helping rescuers deliver effective chest compressions during an emergency.
- **Compact and Lightweight** at just 2.4 lbs, the 500P is one of the lightest AEDs available, making it easy to carry and quickly deploy when needed.
- **Integrated Pad-Pak Design** combines the electrode pads and battery into a single cartridge, making routine maintenance and replacement simple.

With its intuitive design and proven performance, the **Encore Series HeartSine AED** offers **trusted protection at a fraction of the cost** of a new unit, without compromising quality, safety, or peace of mind.

Included in this package:
